

# Polleneighbors

## Kindergarten

Here at Red Butte Garden, we believe learning is fun and can happen anytime, anywhere. To help continue the fun at home, we've included an outline of the topics we'll study this week at camp as well as a list of additional activities, books, and other resources related to this week's theme. We hope you'll use this to engage with your camper and keep the learning process happening all summer long! Thanks for coming to Summer Camp, and we'll see you soon at the Garden!

### CAMP THEME

Many of the fruits and vegetables we eat every day are made possible through a little help from garden critters! Pollination of flowers is what helps plants to grow a lot of the food we eat. Through games, snacks, walks in the garden and more we will learn each day about a different polleneighbor and their plant friend.

- **Monday** – Bees and chocolate
- **Tuesday** – Birds and bananas
- **Wednesday** – Moths, butterflies and chamomile
- **Thursday** – Beetles and wild ginger
- **Friday** – Bats and cacti

### ACTIVITY IDEAS

- Make a homemade butterfly feeder
  - <https://kidsactivitiesblog.com/86777/easy-homemade-butterfly-feeder>
- Take a walk to see how many different pollinators you can spot. Birds, bees, and butterflies can be seen during the day, but keep an eye out for bats and moths when the sun goes down.
- Craft your own playdough birds
  - <https://craftulate.com/play-dough-birds-fine-motor-fridays/>

### ADDITIONAL RESOURCES

- *The Reason for a Flower* by Ruth Heller
- *The Very Hungry Caterpillar* by Eric Carle
- *Flowers Are Calling* by Rita Gray
