

NOTICE OF DATA SECURITY INCIDENT

On July 16, 2020 Red Butte Garden received a notification from the software firm Blackbaud of a data security incident that affected educational institutions and nonprofit organizations around the world. Red Butte Garden uses Blackbaud's products for constituent relationship management. Red Butte Garden has worked with Blackbaud and the University of Utah Information Security Office to comply with all security incident reporting. We will share additional information as necessary.

Blackbaud has assured us that no credit card or bank account information was compromised in this breach. They recommend that individuals remain vigilant and report any suspicious activity of suspected identify theft to them as well as local law enforcement authorities.

Additional information regarding this incident is available on Blackbaud's website: <https://www.blackbaud.com/securityincident>.
